Front Cover

**BLACK LINE**  
The black line shows where the cover starts to wrap over and around the hard cover board. Important elements of your cover should be well within the black line.

**RED LINE**  
The area between the black line and the red line represents the hard cover wrap. This is the part of the cover that wraps around the cover board. Please make sure your cover artwork stretches past the black line to the red line. This will avoid strips of white showing at the edges of your cover.
